Diseño de chasis de nueva generación

➤ *“Cristal Cabinet”*

Estructura mas reforzada y menor nivel de sonido.

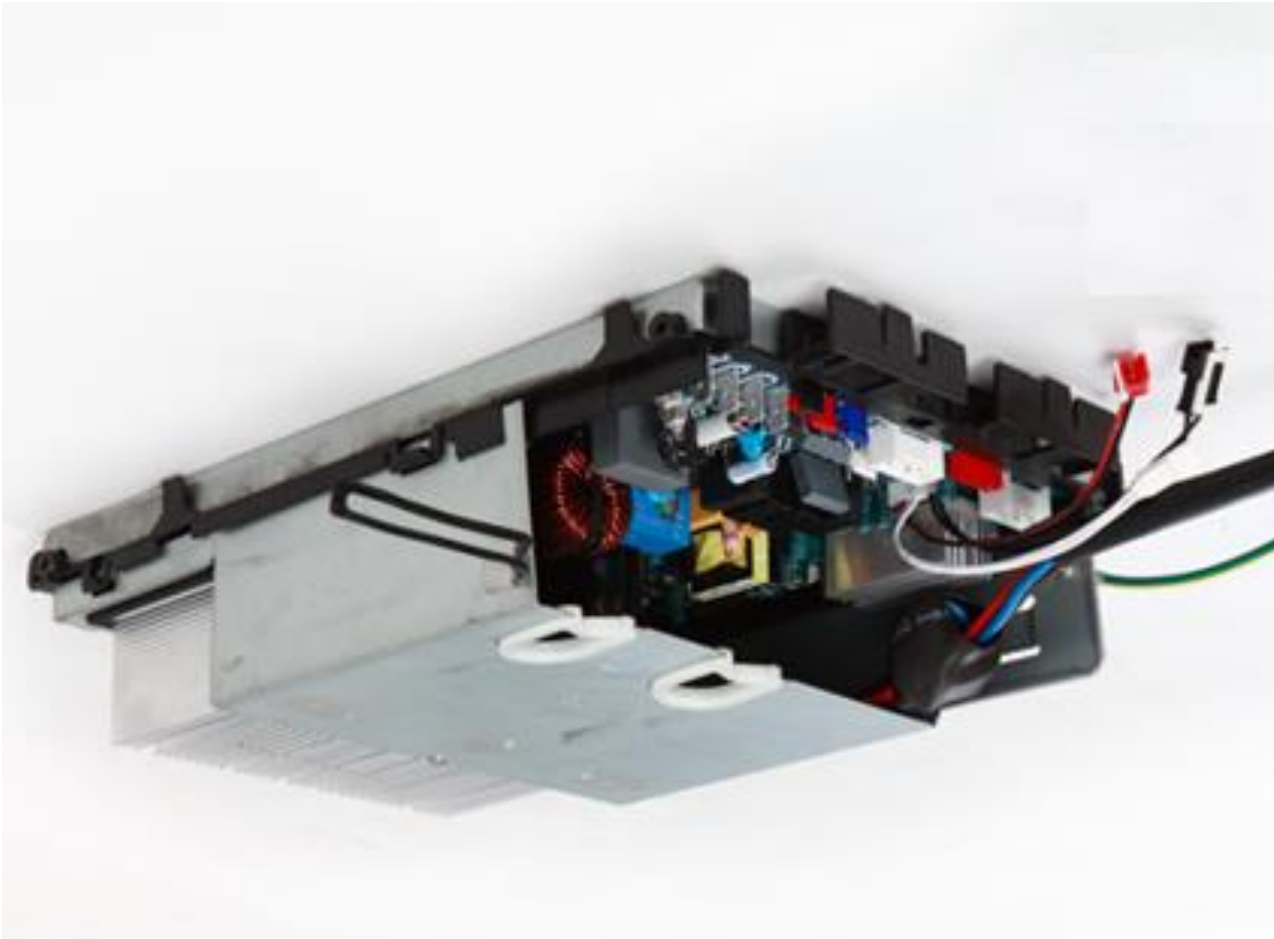

Nueva generación de control

➤ *Nuevo modulo de inversor*

Control del compresor optimizado;

Diseño “al revés” reduce los depósitos de polvo y contaminantes.

Nueva generación de compresores

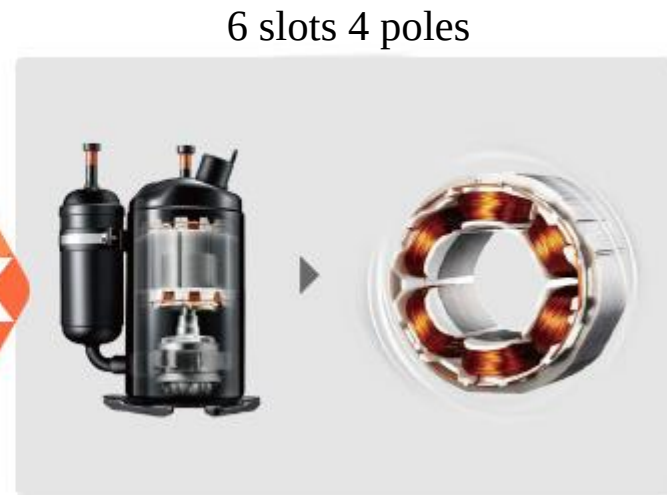

➤ *Diseño de compresor*

La aplicación de motor de imanes permanentes de tierra raras de 6 polos/9 ranuras, y un mofle optimizado, resulta en menos sonido, vibración, y mejor eficiencia.

9 slots 6 poles

Rear earth magnet

6 slots 4 poles

Ferrite magnet

Control Remoto

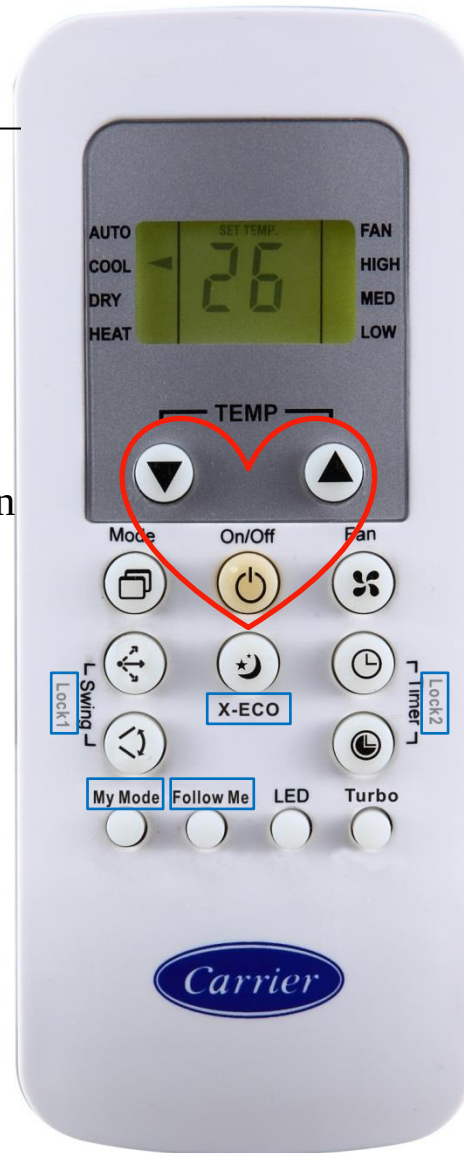

Sensor de temperatura

➤ Follow Me

Build-in sensor to sense the room temperature instead of the indoor return air sensor.

➤ My Mode

One button to memory & reset the favorite Mode/Fan/Temp. combined settings.

➤ X-ECO

60% power consumption saving during the night.

➤ Dual Lock

Lock1: all buttons can't operate, prevent children from playing.

Lock2: only On/Off/TEMP can operate, easy use for old people;

* Combined buttons operation, only indicated in the manual.
