Columbia Mini Split Cooling Only Inverter

COMFORTABLE EXPERIENCE WITH
ELEGANT DESIGN

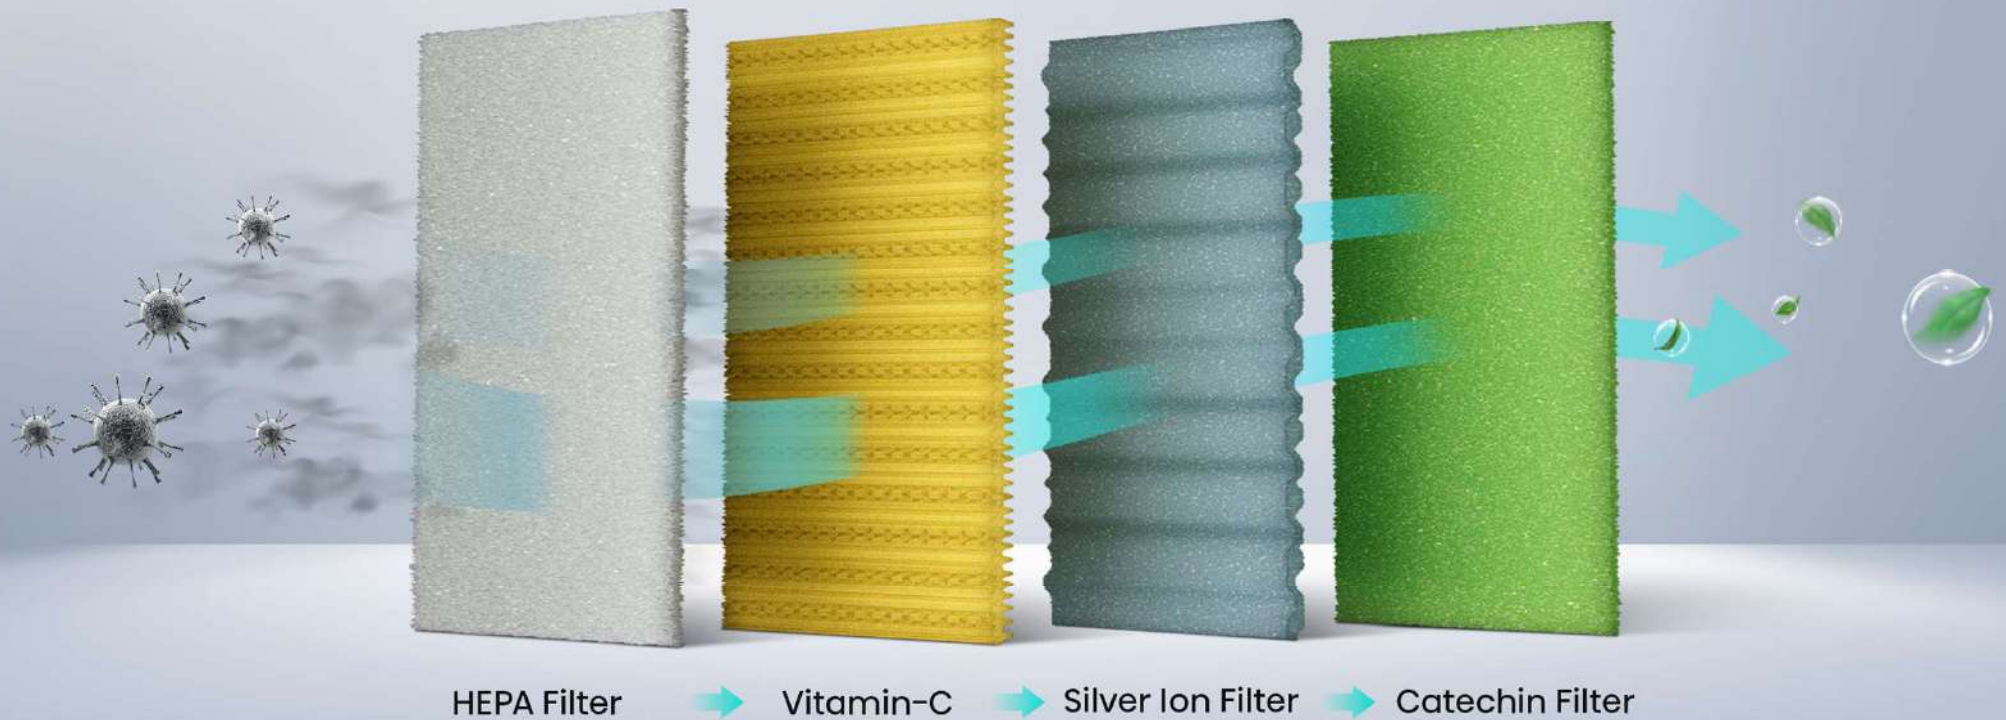

Wifi Control

For controlling the climate with your smartphone via Wifi. Enter APP Menu Select Air Conditioner Set mode, temperature, air flow, etc.

4-1 Filter

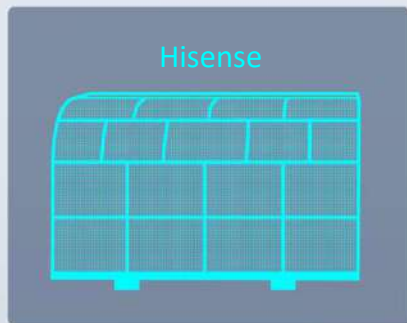

The combination of four filters can effectively remove all kinds of dust and odor in the air and refresh the indoor air.

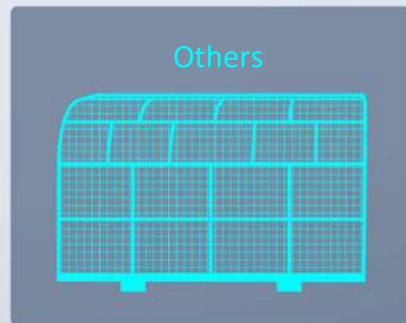

* The promotional content needs to be modified according to the combination of different types of filters.

High Density Filter

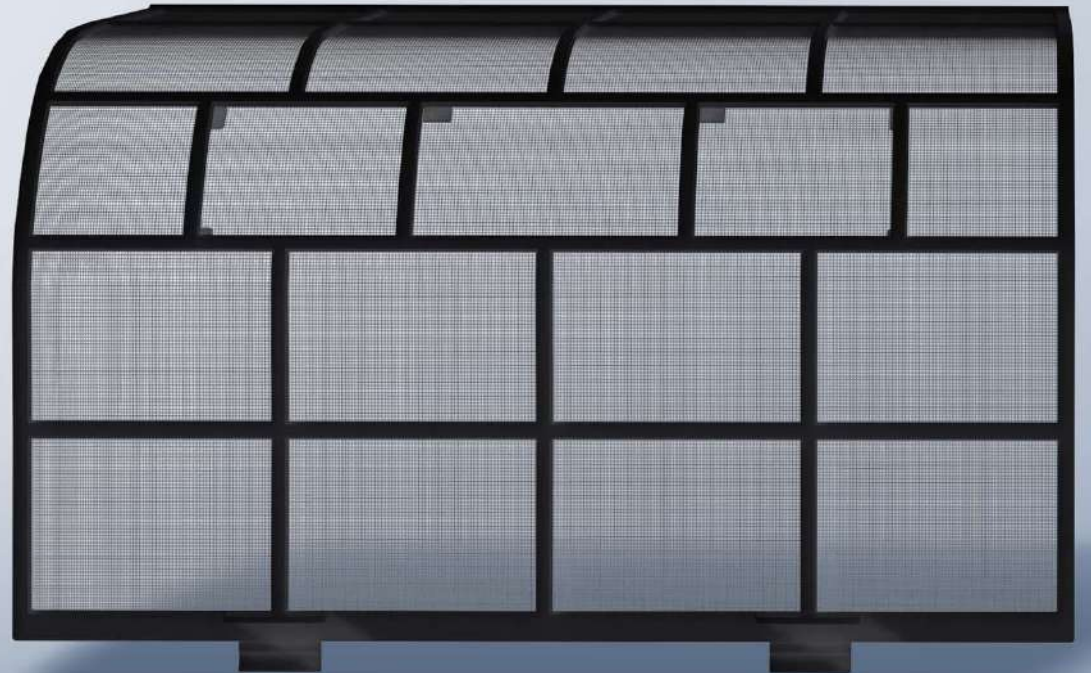

This high density filter can remove more than 90% dust, just simply wash out filter with water, you can enjoy fresh air everyday.

High Density Filter

Low Density Filter

Evaporator Self-Clean

Via a frosting and defrosting cycle, you can easily regain a clean air conditioner.

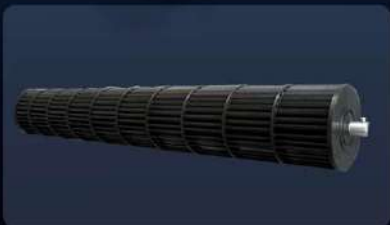

Quiet Mode

In the Quiet mode, you can have a quiet and comfortable environment.

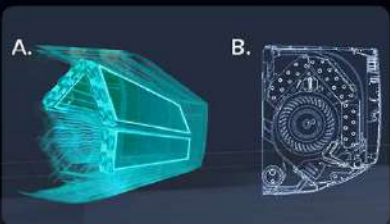

- **Indoor DC Motor**

One-piece plastic-sealed motor with god sealing performance and low noise.

- **Unique Cross Flow Fan**

Effectively reduce air flow resonance.

- **Silent Air Duct Design**

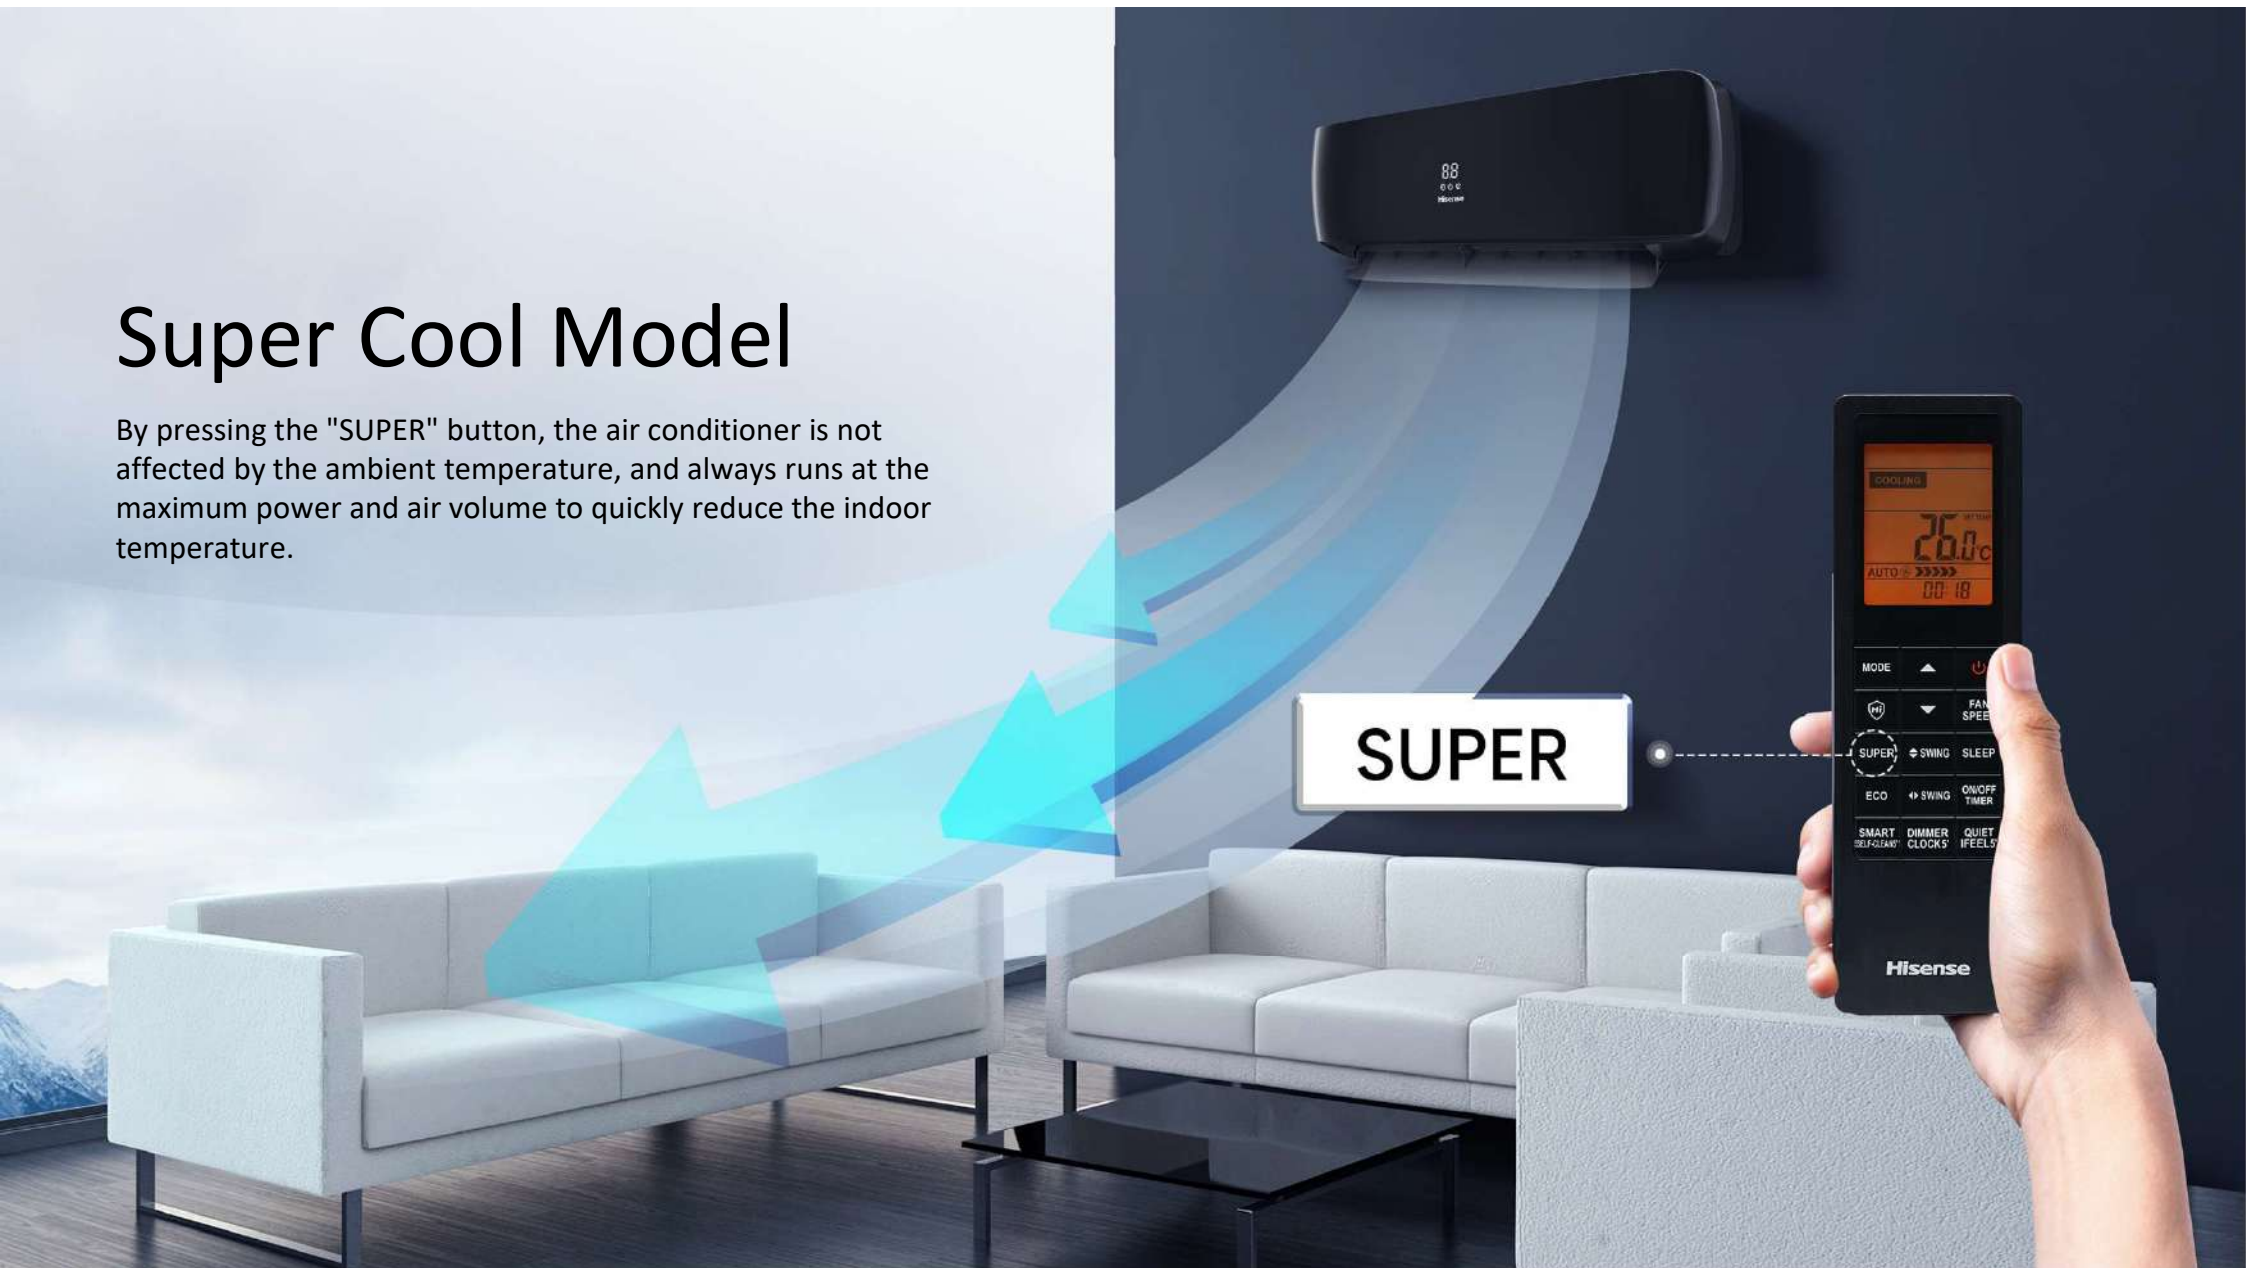

Gradual voltages improve wind resistance and keep airflow stable.
Large radial fans achieve large air volume and low noise.

19dB

Super Cool Model

By pressing the "SUPER" button, the air conditioner is not affected by the ambient temperature, and always runs at the maximum power and air volume to quickly reduce the indoor temperature.

4D Auto-swing

AC's horizontal and vertical wind deflectors are controlled by independent stepping motors, which can improve distribution of cooling, make the room temperature more even.

I Feel

By pressing the "I Feel" button to achieve intelligent temperature control. More accurate and comfortable.

3 Minutes Protection

The 3 minutes protection of compressor can avoid some damages to it and makes the compressor have longer life.

Golden Hydrophilic Fin

The golden hydrophilic fins have high heat exchange efficiency and certain corrosion resistance. In addition, it is high-end fashion and more attractive.

LED Hidden Display

Full sense of science and technology, air
conditioning operation at a glance

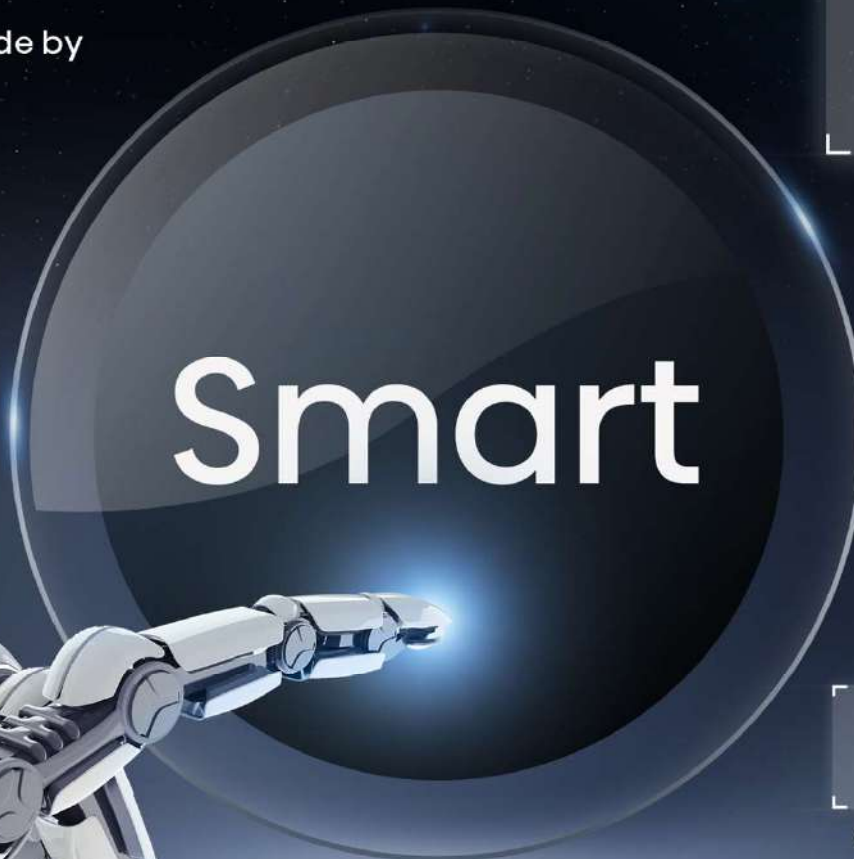

Smart Mode

Air conditioner is operating in smart mode by pressing one button, operate mode is adjusted by ambient temperature automatically.

HEATING MODE
Indoor TEMP: 21°C or below

FAN ONLY MODE
Indoor TEMP: 21°C ~ 23°C

DRY MODE
Indoor TEMP: 23°C ~ 26°C

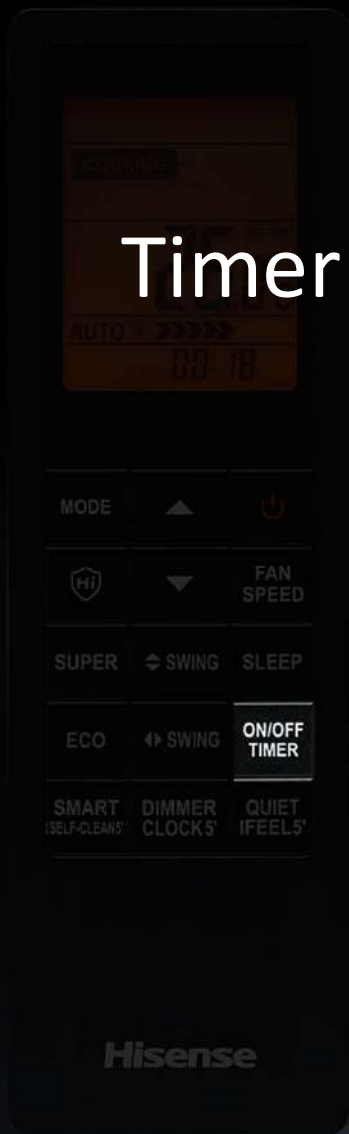

COOLING MODE
Indoor TEMP: Over 26°C

Dimmer

Press this button to shut off the display light on the front panel.

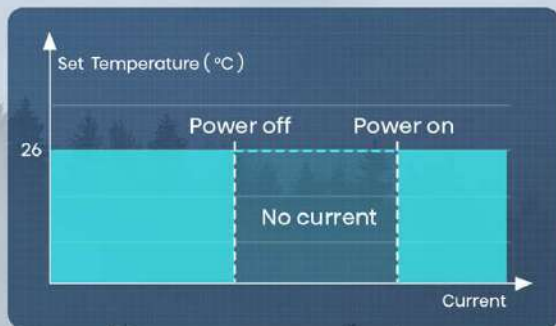

Timer 24H

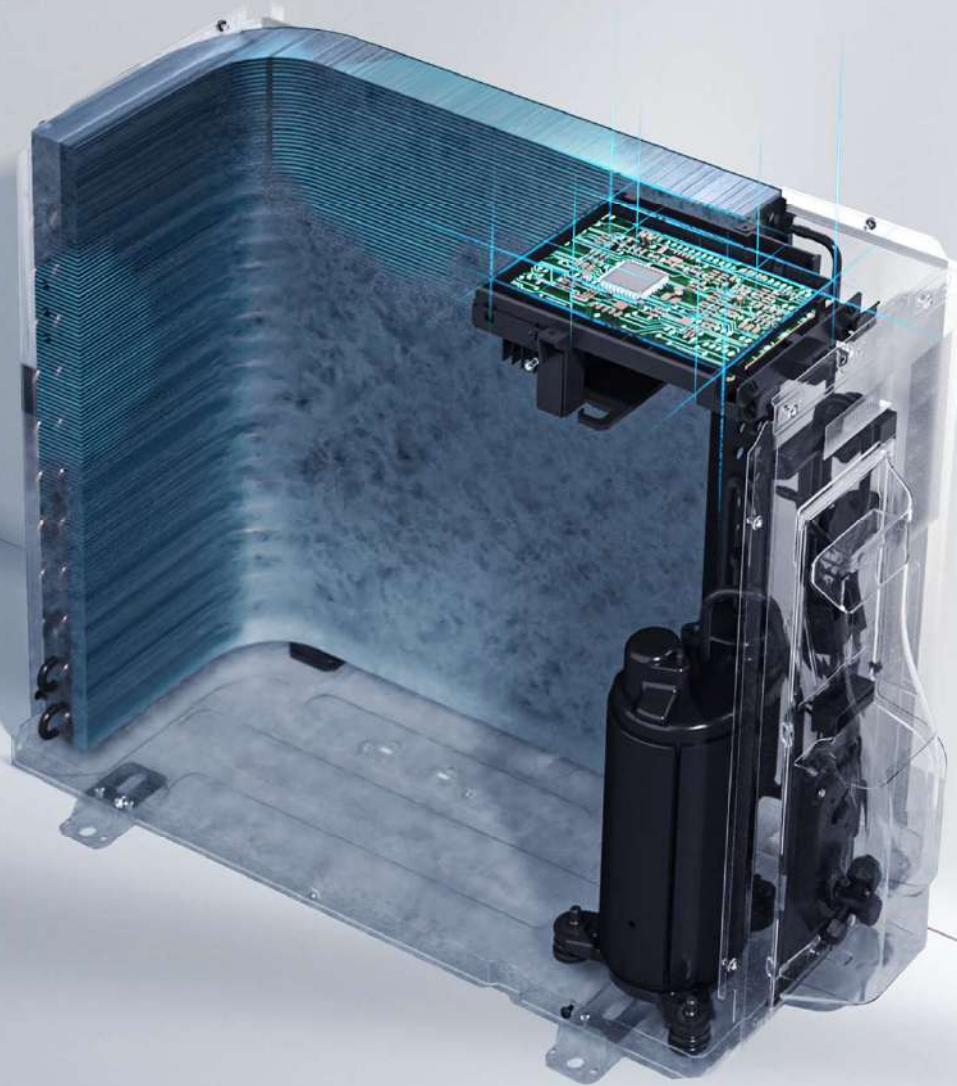

Auto Restart

After the power is restored, AC will immediately resume operation without the need to manually reset the control device.

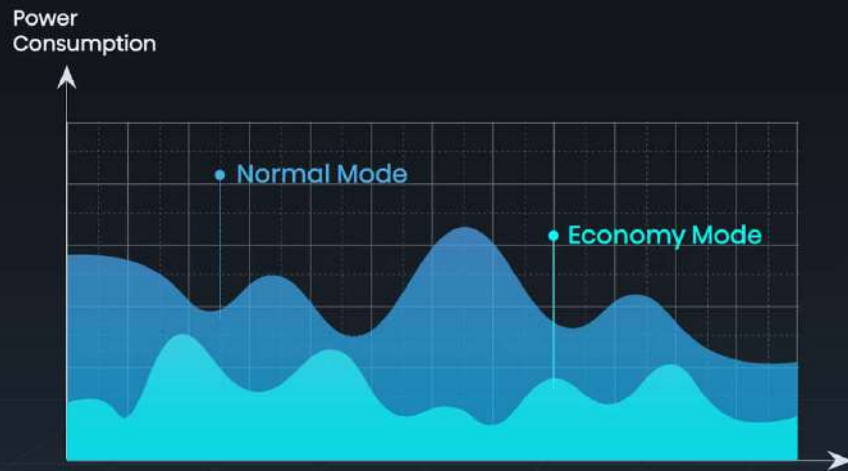

Intelligent Defrost

Intelligent CPU monitors the temperature, according to which the frost can be eliminated automatically and thoroughly, so as to improve the heating efficiency of the air conditioner.

ECO Mode Operation

Without complicated settings and operation, The AC immediately enters the energy-saving mode to minimize power consumption while providing cooling comfort.
